Chronic stress disrupts every system in our bodies. It can raise blood pressure, suppress immune function, increase risk of heart attack and stroke, contribute to infertility, and speed the aging process. Long term stress can even re-wire the brain, leaving us more vulnerable to anxiety and depression.

We combine adaptogenic herbs that support adrenal health, Ashwaganda, Eleuthero Siberian ginseng, Rhodiola, Licorice, Schizandra, with the powerful antioxidant, Vitamin C. L-Tyrosine assists in adrenal hormone production; B-6 protects against excess cortisol and other glucocorticoid hormones. We include small strategic amounts of Gotu Kola and Licorice to address lack of energy, even low blood pressure in those with compromised adrenal glands.
